

WE NEED TO TALK ABOUT PET NUTRITION

If your pet is having continuous episodes of diarrhoea, vomiting, abdominal pain or even weight loss, they might be facing a major digestive condition.

Has the condition resolved?
If so, you might need to chose the right transition diet.

Is your pet having minor digestive upsets such as episodes of soft stools or minor digestive sensitivities?

ASK YOUR VET ABOUT DIETARY MANAGEMENT OF MAJOR DIGESTIVE CONDITIONS AND SUPPORT YOUR PET WITH THE ADEQUATE PRESCRIPTION DIET FROM PRO PLAN® VETERINARY DIETS.

ASK YOUR VET ABOUT DIETARY MANAGEMENT OF MINOR DIGESTIVE UPSETS AND TRANSITION DIETS FROM PRO PLAN® OR PRO PLAN® EXPERT CARE NUTRION FOR SENSITIVE DIGESTION.

Do they have a digestive upsets?	EN GASTROINTESTINAL¹ CANINE & FELINE
